Deafness Cannot Be Cured

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result; and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Coming Political Issues.

When the time comes to deal with the problem [of national expansion] realignments may be expected. It will be found then that the fundamental issue upon which the people will divide will be to hold or not to hold the islands in our possession. It will be an issue of international and expansive liberalism, against extreme and congestive domestic conservatism. —Galveston Daily News.

The women of Coffeyville, Kas., made up a package of useful articles for each member of the local company of volunteers, and sent the whole to the camp at San Francisco. A copy of the New Testament went with each package, and one of the recipients objected to the gift. He said it wanted the Old Testament, because there was much more war in it.

## The Children.

The busy business man finds little time to devote to the training of his children. This is a sad and a fatal error. Business is important. Food and clothing must be provided, books and schooling are essential, but the personal attention of the father to his children is fundamental to their welfare. Nor must this attention be superficial and spasmodic; it must be heartfelt and daily. The father must make his love felt by reason of a ten-sider social intercourse—an interest in their likes and dislikes, their joys and sorrows, their tasks and their plays. Better, a thousand times better, do a little less business and accumulate a little less money and bless the world by giving to it a manly boy or a womanly girl, reared in a well-ordered, lovely Christian home, than to accumulate a vast fortune and let the children, whom God has given you to be a blessing to you, and through you to the world, become physical, social and moral wrecks because of parental neglect of them for the sake of attending to business. ## A GENEROUS

GOOD WORK BY THE C. W. B. M.  
Full of Inspiration and Blessing.

Commencement of Hazel Green

Academy, June 5-8, 1898.

The weather was delightful; the attendance was the largest ever seen in Hazel Green; the order and behavior were unexcelled; the exercises were well carried out, and the week ended in a "blaze of glory" and praise for the Mountain Mission of the C. W. B. M.

The exercises for the week began on Sunday morning, when Elder W. F. Smith, of Lexington, delivered the baccalaureate sermon. His topic was "Life, Its Plan and Execution." This sermon was replete with thoughtful study, and reached the hearts and riveted the minds of the large audience that listened eagerly for fifty-five minutes. In the evening Mr. Smith delivered the annual address to the Y. P. S. C. E. This address even excelled the sermon of the morning, and its fruits shall be gathered by many waters henceforth.

On Monday evening the eighth annual declamatory contest, between five young men, was held. The contest was excellent, showing how carefully the young men had been trained and much native talent and ability. In this contest the handsome gold medal was awarded to Robert P. Kash, of Wolfe county. On the same evening the seventh annual contest between four young ladies was held. This contest was close; the honors seemed equally divided. However, the gold medal was awarded Miss Nannie Maple, of Hazel Green.

On Tuesday afternoon there was a meeting of pupils, patrons, friends and alumni. This was one of the best meetings of the week. Addresses were delivered by J. S. Adams, of Magoffin county, and Ed Oney, of Wolfe county, and happy speeches were made by Revs. Wallin, of the Presbyterian church, and Word, of the Methodist church.

On Tuesday evening the annual entertainment by the primaries and the debate between six young men were given. The entertainment was one of the most beautiful ever given by the school. The debate was hotly contested, the question being "The Constitution of the United States is not Commensurate to the Growth of the Nation." The speeches were very fine and showed much study and preparation on the part of the speakers. The argument was given to the affirmative, and the beautiful gold medal was awarded Pestus Kash as the best orator. The decision of the judges in this was unanimous. There were three judges, and each had his favorite speaker. A fourth judge was called, and behold, his favorite was a fourth one of the speakers; but a second choice gave Mr. Kash the medal.

On Wednesday the commencement program was given. Orations, essays, music, addresses and presentations of medals, diplomas, etc., with flowers, filled the hours.

E. O. Tanneb's oration, "The Living Present;" R. B. Day's "A Keeping Step to the Music;" and Miss Maxey's essay, "Scatter Bouquets To-day," were of the very highest order and reflected much credit and honor upon the class of '98.

The address to the graduates by Prof. G. Nelson Stevenson was one of the best we have ever had, and much wholesome advice was given to both class and students.

The medal for best "attendance, deportment and scholarship," among the primaries, was awarded to Horse Word, son of Rev. J. E. Word. This honor was close with Robert Cord and Ethel Word the winner.

The medal for best "attendance and deportment," in the Academic Department, was awarded to Miss

The medal for best "scholarship" shown on final examination was awarded to W. A. Caskey, of West Liberty. His average per cent. was 92.9-20. He was followed by Miss Florence McGuire, of West Liberty, with 86 1/2 per cent.; Noah Cisco, White Oak, with 85 681-900 per cent.; H. C. Ward, Tolver, with 80 33-40 per cent., and A. J. Brown, of White Oak, with 80 5 12 per cent.

There were three graduates, viz: W. S. Wilson, Daysboro; Eliza James, Hazel Green, and Clay Campbell, of Wolfe county, in the "Business Department" of the Academy.

Wednesday an Alumni Association was organized, with E. O. Tanneb as president and Miss Minnie Day as treasurer and secretary. The first public meeting will be held during commencement, 1898.

During the entire week many visitors from a distance were in attendance and all speak in glowing terms of Hazel Green Academy.

The next session of the school will begin Monday, September 5, 1898. Already persons are arranging to attend the entire session, and that will doubtless outstrip the past session.

The wife of one of the men of the Thirteenth Regiment of Brooklyn greeted him with this question when he returned home from the army on the night the regiment was disbanded: "So you took your discharge, did you?"

"What else could I do?" he replied. "What else could you do? I'll tell you what you could have done. You could have told Major Russell that you were too much of a coward to go to the front, but if he'd have your uniform cut over so as to fit me, then the family would have kept our name on the roll." —Brooklyn Times.

As a candidate for Congress, in the 10th district, subject to the action of the Democratic party.

We are authorized to announce  
HON. H. B. KINSOLVING.

Of Montgomery County, as a candidate for Congress in this, the Tenth Congressional District, subject to the action of the Democratic party.

MONTGOMERY'S CANDIDATE.

Mr. H. B. Kinsolving received enthusiastic endorsement of his home county (as represented in the Delegate Convention on Saturday) for Congressman from this, the Tenth District.

When a telegram was read during Saturday's convention that Wolfe county had endorsed our home candidate a rousing cheer went up for both the Democracy of Wolfe, who had shown their good will and appreciation of Montgomery's candidate as well as Mr. Kinsolving himself.

Montgomery county presents her candidate to the District and asks the representatives of the several counties who are to meet at West Liberty on Thursday to name him for Standard Bearer for the Democracy for this Congressional District. In presenting to the District Mr. Kinsolving, Montgomery has no hesitancy in promising that if he is nominated that there will be a most aggressive campaign waged against the opposing party. Mr. Kinsolving is not only a fluent and pleasing orator, but a well posted and forceful debater who will make things very warm for the Republican who meets him on the stump. Montgomery asks for her candidate the endorsement of the Convention. He will do the rest.

## WELCOME!

Again many of the people of our city and vicinity open their hearts and homes to a band of noble women and men who for three days and nights will bless us with their fellowship, counsel and work. Their coming will do us good. They are engaged in the Lord's work.

The renewal of friendships, the making of new acquaintances, the interchange of social courtesies, the reports showing what has been accomplished, the consideration of plans for the future, the words of wisdom, the songs and prayers, will combine to make their sojourn pleasant and profitable to the people of our city.

The ADVOCATE extends to them a cordial greeting, and will be pleased to meet at our office all who have time to call.

The Spanish Vice Consul to Hawaii registered a vigorous protest against the violations of neutrality by the Hawaiian government in favor of the United States during the actual hostilities between Spain and the United States. Minister of Foreign Affairs, H. E. Cooper, replied that Hawaii was knowingly and purposely according acts of friendship to the United States, and therefore he could take no notice of the Spanish protest.

## OBSTRUCTIONISTS AND THE PEOPLE.

The Newlands resolution providing for the annexation of Hawaii passed the House by a vote of 201 to 91. The majority voting against the resolution being Democrats. A rather peculiar fact in relation to the vote is that many of the representatives from States that came into the Union through the Louisiana purchase as well as many of those from Texas opposed the annexation resolution. These men from this annexed territory had, too, practically the same arguments to present against annexation that the obstructionists of other days urged against the acquisition of the vast territory bought from France or the great State of Texas.

Hitherto Democrats have stood for the advancement and expansion of our territory. It looks strange to see Democrats standing in opposition to such measures. A number of Democrats, notably Mr. Bailey, of Texas, and Mr. Bland, of Missouri, are completely out of touch with the people of the country on this question. Their opposition is making the people very tired. Such men had just as well make up their minds to get out of the way or be run over and trampled under foot by National advancement. The people are not in any humor to listen to croakers just now.

This country owes a duty to humanity and is going to discharge that duty. Its flag stands for freedom and enlightenment, and though it may cost us something in both blood and treasure, we must accept the opening offered us and face the responsibility thrust upon us by the exigency of the times. The people have said and they mean it, "Shoot the man on the spot, who attempts to tear down the American flag from where once it has floated."

The politician who does not desire a complete and final retirement to private life will do well to take time to feel the pulse of the nation if he has not already taken opportunity to perform this very necessary duty.

## STOP THIS NEGRO SCRAP-PING.

Many of the good citizens of the city are registering a strong protest against the boxing contests that have been going on between some negro scappers here of late. These prize ring exhibitions are clearly in violation of both the letter and the spirit of the law and our officials are called upon to see that the disgraceful affairs are stopped. All the worst phases of the regular prize ring are exhibited by these so-called "athletic contests."

These affairs are not only a disgrace to the town, but are demoralizing our young men. For the good name of our city, if not for common "decency's" sake, let us have no more of these contests.

We respectfully call the attention of the Mayor and City Fathers to these athletic contests (?) and ask that they give the matter their attention.

A test vote is expected within a day or two in the United States Senate on the Hawaiian annexation resolution. There is a strong probability, however, that a prolonged debate will be indulged in before the resolution is brought to a final vote.

The Court of Appeals will adjourn Thursday for the summer vacation. The Court will hand down decisions in the Prison Commune case and the Third District gerrymander case before adjournment.

## The Congressional Race.

So far as heard from it seems to be any body's fight for the nomination at West Liberty this week. The news thus far received from the county conventions is too meager to give a forecast of the result. Our home candidate, Mr. Kinsolving, seems to have fully as good chance for the nomination as any one who will be before the Convention. In fact, if there is any truth in rumored action of several of the counties, Kinsolving has the most excellent chances of landing the plum. So far as reliably reported we can give the following:

Montezuma instructs for Kinsolving.

Wolfe gives its vote to Kinsolving. Morgan county will send a contesting delegation. Two conventions were held. It was Fitzpatrick vs. Sublett, Kinsolving and Garner.

Lee instructs for Pollard first, Garner second.

Clark goes for Garner.

So far as heard from Kinsolving has 16 instructed votes.

The following is the vote by counties of the Tenth District as based on the Bryan vote of 1896: Powell 3, Lee 3, Clark 10, Montgomery 8, Estill 4, Breathitt 6, Magoffin 4, Knott 4, Meigs 3, Morgan 8, Elliott 5, Johnson 4, Floyd 7, Martin 1, Pike 9, Wolfe 5. Total 86.

Necessary to a choice 43 and a fraction.

## The County Delegate Convention.

Precedent conventions were held as far as the County Chairman in all the precincts of Montgomery county on Thursday afternoon. The delegates named by the several precincts met in Convention at the Court House in this city at 2 p. m., on Saturday, June 18. The meeting was called to order by County Chairman Robert Marshall. R. A. Chiles was elected Temporary Chairman and W. Q. St. John, Secretary. The temporary organization was made permanent.

Judge A. A. Hazelrigg from the Committee on Resolutions reported the following:

We, the delegates selected by the precinct conventions held June 16, 1898, in convention now assembled, hereby approve the call of the District Committee fixing the time and place for holding the convention to nominate a candidate for Congress in the Tenth District of Kentucky.

Resolved, That we affirm our allegiance to the Democratic platform adopted and formulated at the Chicago convention in 1896, believing it to be the truest and best exposition of the rights of the people, and a return to the time-honored principles of Jefferson and Jackson.

Resolved, That the Democrats of Montgomery county recognizing in the person of the Hon. H. B. Kinsolving the most of sterling integrity, recognized ability, a finished scholar, an accomplished gentleman and a peerless orator of Eastern Kentucky, do now present his name to the Democracy of the Tenth Congressional District as its logical candidate for Congress. That by his uniting energy and faithful devotion to the party and its nominees in every heated campaign against the enemies of the people, he has worthily and justly earned the right to carry the standard of the party to victory in November next.

Resolved, That W. T. Havens, B. F. Wyatt, R. A. Chiles, John E. Cooper, A. A. Hazelrigg, W. B. O'Connell, A. W. Young, and C. C. Cheneau be and they are hereby appointed delegates; and Wm. Sledd, J. R. Thomas, J. W. Henry, J. T. Stockdale, J. M. Oliver, Jr., James McDonald, Robert Marshall and P. B. Turner be and they are hereby appointed alternate delegates to attend the convention to be held at West Liberty, Ky., on June 23, 1898. And they are hereby instructed to vote for the Hon. H. B. Kinsolving, first, last and all the time, and to use all honorable means to secure his nomination as the Democratic nominee for Congress of the Tenth Congressional District of Kentucky. And said delegates are instructed to vote as a unit on all propositions that come before said convention or as a majority of the delegates attending in person may dictate.

The resolutions were adopted. On motion the convention adjourned.

### Facts and Observations.

On Thursday a representative of the ADVOCATE visited Sidney and North Middletown, starting at 5:30 a. m. and returning at 8:30 p. m. A few facts may prove interesting.

Prospects for corn and wheat are good; the wheat is especially so, although we heard of rust and chinch bug doing injury in some fields. Tobacco is backward and the stand has mostly been bad. We interviewed Wm. Kabler and Milton Johnson in their patches. Both have set out crops three times. An insect has destroyed many of Mr. Johnson's plants after setting. Last year he had a very fine crop. Harvesting of wheat will begin last of this week. Grass seed crop is light. Fine rains had fallen around North Middletown (in spots) early in the week. Most lambs have been sold.

We cannot boast of excellent fresh pikes. A little more time is needed to perfect them.

Socially we called to see the family of James Moore. He will be 80 years old September 15, and is now quite feeble with paralysis, requiring assistance in lying down. He recognizes that his race is nearly finished and is waiting for the crown. His daughter, Mrs. Payne, is now at Gladies Springs, Va., with her husband.

Samuel Montague, father of Mrs. Martin Brown, Mt. Sterling, has been a paralytic for eighteen months and is seriously sick.

We met J. W. Willoughby, who married a daughter of Rev. Dow Shaw, a Methodist preacher whom we knew years ago at Hazel Green.

We called at Allie Jones'. His father-in-law, T. J. Evans, and wife were spending the day. Mr. Evans has thirteen grandchildren. He was a McKinley Democrat, and is somewhat still affected. Our declining to stay for dinner was not owing to this fact.

The wife of A. K. Young gave us a home dinner, without charge, which was most excellent—a fine assortment of vegetables, rich butter and milk, fried chicken and thick gravy. Then socially we had a pleasant time. On December 23, 1896, we had spent a night with the family. The then Miss Eston is now Mrs. Harp, a bride of three months. Their yard has beautiful flowers.

We then called to say "Howdy" to J. W. Young and family. His daughter Sadie met us and invited us to dinner; we declined. This brought Mr. Y. to the parlor. We explained, but explanation to him was not satisfactory. He said, "Come out and meet the young folks and talk some strawberries and cream." Our modesty yielded—strange! We chatted and enjoyed the refreshment. There was a long table crowded with Young folks and other folks, including the editor. There were Misses Ella and Josie, daughters of John G. Redmon; Lois Willis, daughter of Rev. W. S. Willis, of Flemingsburg, and Emma, daughter of W. F. Bryant, and only six of Mr. and Mrs. Young's seven. The baby, always (even with

a house full) the sweetest and prettiest, was not visible. Then to the parlor for a few minutes. We thanked Misses Willis, Bryant and Young for music, remembering that last summer we had met Miss Bryant with a party of young folks at the home of Mr. Huston. We shook hands all round and hastened off to meet a man at the back who was to pay us eight years' subscription. [He is a man, and had nothing to say about "conscience"]. See Facts and Observations from Sharpeburg on this point. Good-bye.

### Baptist State Association.

The General Baptist Association of Kentucky is in session at Hopkinsville. Rev. W. J. Bolin and Mr. J. W. Hedges are in attendance from Mt. Sterling.

The Association on Saturday adopted the following red-hot resolution in the much discussed Whistler controversy by a vote of 125 to 95:

Whereas, The Seminary trustees refused to remove Dr. Whistler; therefore,

Resolved, first, That the Southern Baptist Seminary shall not be allowed to make any report to this body or present any appeal of any sort so long as Dr. Whistler shall be in any manner connected with the institution.

Second, That if Dr. Whistler's connection with the Seminary has not ceased at the time of the next session of the Southern Baptist Convention we urge that body to adopt as the only means of preserving its unity the resolution proposed by Dr. H. H. Carroll, of Texas, whereby the convention shall dissolve the bond of connection between that body and the Southern Baptist Theological Seminary.

Third, That the Clerk of this Association be instructed to forward a copy of these resolutions to Hon. Joshua Levering, Chairman of the Board of Trustees, at their next session.

### Confederate Reunion.

Capt. J. H. Leathers, Commander Louisville Camp, has announced that he has been complimented by Col. John Boyd delegating him the selection of a Louisville girl as Sponsor of the reunion.

"I have selected," said he, "a young lady who will be a credit to our command, Miss Mary Scarie Semple, daughter of Maj. Chas. Semple, to attend the reunion."

Miss Anna Johnson has already been selected Maid of Honor. These young ladies will be the guests of the city of Atlanta during the reunion, July 20 to 24.

### CONVENTION NOTES.

No public dinners will be served during the Convention.

Loud talking or laughing in the vestibule might disturb those in the church.

Talking in the church during prayer should be discouraged. Men will please observe this.

Sisters Highland, Clay and Stone will, during the Convention, furnish lunch in the basement of Tyler & Aperson building—only to invited guests.

Mr. Sterling has entertained many religious assemblies and the reception given this week will, no doubt, maintain our reputation for being social and hospitable.

We will not boast of the attractions of our city. Give our guests an opportunity to see for themselves. Between the sessions of the conventions there will be some time for recreation. Go driving with your friends.

On first page will be found the program for the convention and an account of the commencement of the Hazel Green Academy, which is conducted by the Christian Woman's Board of Missions in the United States.

All articles, such as gloves, fans, handkerchiefs, pocketbooks, etc., found at the Christian Church during the convention will be in the care of the sexton who will return same to owners. On Sunday evening two ladies' gloves, tan and green were picked up.

Persons who occupy the seats nearest to the aisle will afford others an opportunity to crowd by them or jump over and crawl under the pews in order to be seated. Such a performance would attract attention. Obey the inner seats.

### The War Situation.

Summed up from the dispatches of yesterday the situation is about as follows: The army of occupation had not reached Santiago up to last accounts. It was hourly expected.

Sampson had treated the Dons to some additional bombardment and was making their stay in the fort very uncomfortable.

On Saturday the Spanish flag was seen flying a half mast over Morro fort. This indicated either that a prominent Spanish officer had been killed or that Hobson and his men had fallen victims to our guns or Spanish barbarity. If the latter a fearful vengeance will be taken. The havoc wrought by the missiles from the Vesuvius in its night attack were, from all indications, something fearful.

The Spaniards apparently are deserting their guns at night to avoid a repetition of the dose. The condition of people and troops in Santiago is deplorable. It is reported they are eating horses and jack mules for food.

The insurgents are pressing in on Manila and daily rendering the situation more critical. The transport of the City of Pekin with American troops on board reached Manila June 15.

A tax of 10c per pound has just been put on tea. We will still sell you the celebrated 40c tea at the same old price.

### Church Improvements.

The congregation of the Christian church rendered services in their house of worship Sunday morning. At both the morning and evening services large crowds were present. Rev. H. D. Clarke, the pastor, preached two splendid sermons full of wholesome instruction and glad tidings of thanksgiving.

The improvements in the audience room of the church are not only substantial, but very beautiful as well. Better than all this, while the improvements have been expensive, there will be no church debt hanging like a millstone around the neck of the church and clogging its efforts for good.

There is yet some work to be done, but the committee hopes on next Sunday to formally turn over the building to the congregation. They hope to see the increased seating in the building filled by the members.

### JUNE COURT DAY.

June Court-day was a dull one as far as cattle was concerned. There was about 350 cattle on the market, mostly cows and heifers; no good steers for sale. It is hard to give quotations, as so few cattle were weighed. The best steers sold at 40c; yearlings a shade higher; cows as high as 35c to 40c.

A good crowd attended and we noticed some buyers from other States.

Sheep were here in abundance. From what we could learn fully 5,000 sheep started for this market, and from \$3,000 to 3,500 were here yesterday. About 1,000 or 1,500 were sold on Saturday. The trade was brisk and there was very little trouble in disposing of any bunches that were desirable at satisfactory prices. Prices ranged from \$2.15 per hundred for bucks to \$3.25 for some extra ewes. Most of the sheep changed hands at 3 cents.

SALERS.

John Ross sold twenty 700-lb heifers to W. O. Brock, of Clark county, at \$24.36 per head.

Tom Adams, of Lexington, bought a lot of steer calves weighing about 250 pounds at 4c.

Moore Bros. bought a bunch of nice 600-lb heifers at \$20 per head from Jack Holland.

Mr. Marshall bought 23 light yearling steers of Grant Holiday at \$15 per head.

Will Wilson bought some nice 900-lb cows at \$3.40 to \$3.90.

Grant Holiday sold some rough 1200-lb oxen to Cas Goff, of Bourbon county, at 3c.

J. W. Napier & Bro. sold Will Wilson two nice 900-lb cows at \$3.40.

Stafford & Co. sold a yoke of 1000 to 1100-lb cattle to Wilson Bros. of Bath county, at \$11.00.

SHEEP.

W. D. Garrett, of Little York, Ind., bought 500 or more 90-lb weathers at 3c. This was a nice bunch of sheep.

Kearns & Talbot, of Nicholas county, bought 114 sheep, a mixed lot, weighing about 70 pounds, of South Stamper at from \$2.60 to \$3; of Wheeler & Vest 160 weathers, 85 pounds, at 3c. These gentlemen bought about 500 sheep at about same prices.

Chas. Sampson sold to Caswell Prewitt 70 ewes, lambs and wethers at \$2.15, weight 60 pounds.

Pieratt & Co. sold Ben Henry, of Nicholas county, a bunch of 100-lb weathers to W. D. Garrett at 3c.

Lyons & Sample sold same party 100 head mixed sheep, 85 pounds weight, at 3c. Mr. Henry bought between 400 and 500 sheep at above named prices.

Stafford & Co. sold 159 85-lb weathers to W. D. Garrett at 3 cents.

Davis O'Rear bought a lot of ewes and lambs at 3 cents.

A great many other bunches were sold that did not catch, but at about the same prices quoted.

No hogs on the market.

HORSE AND MULE MARKET.

Mules sold fairly well. Good ones brought good prices; inferior mules a drag.

Gentry Bros., Lexington, bought 10 or 12 good mules at from \$80 to \$100.

Fletcher Mann, of Cynthiana, bought a lot of mules at from \$75 to \$100.

T. L. Davis, of Winchester, bought 10 or 12 horses at from \$50 to \$100. Business at livery stables was medium.

### LAND, STOCK AND CROP.

S. B. White has sold the handsome pair of black road horses which he has been driving to his delivery wagon on to A. B. Steele, of Atlanta, Ga., for \$500.—Richmond Register.

E. C. Peter, of the Jacob Cordage Co., of Cincinnati, last week bought of Mike Grace about 15,000 pounds of hemp at \$4.25 per hundred. J. S. Renick bought of Squire Ingles for the same company about 60,000 pounds at \$4.50 per cwt. This is the highest price that has been paid for hemp in the country this year.—Winchester Sun.

Joel Fesler sold to Bayless & McIrvain, of Richmond, Ky., a very fine jack gelding for \$350. Mr. Fesler is a fine handler of horses and always has some good ones on hand.

A well regulated family is the most beautiful piece of machinery in the universe, as well as the most important. There is nothing in the world that requires more executive ability and exquisite tact, and nothing that is more worthy being well done.—Womanhood.

Did you know that strawberries were one of the finest tooth cleaners extant. A couple of large berries rubbed directly upon the teeth and gums will whiten the former and make the latter sweet and firm.

The abandonment of the postoffice at Kaskaskia, Ill., for want of patronage, calls to mind the fact that this is the oldest town in the State, having been founded by Ill. Salle in 1682—the same year in which Penn founded Philadelphia. It has remained distinctly French to this day, and the modern movement seems to have avoided it.

The largest stockyards in the world are in Chicago. The combined plants represent an investment of over \$10,000,000. The yards contain twenty miles of street, twenty miles of water troughs, fifty miles of feeding troughs and seventy-five miles of water and drainage troughs. The yards are capable of receiving and accommodating daily 20,000 cattle, 20,000 sheep and 120,000 hogs.

## Our Securities Coming Home.

A railway official who keeps well informed regarding financial matters of railways says in the last year so many of the securities of roads have been purchased by capitalists of the country that several of the largest railway systems in which, two years ago, English investors held the balance of power, are now controlled by American capitalists.

The little constant sunbeam, not the lightning; the waters of Siloam that "so softly" in the moon mission of refreshment, not the "waters of the river, green and many," rushing down in noisy torrents, are the true symbols of a holy life. ## The House Votes to Annex Hawaii.

By a vote of 209 to 91 the House of Representatives on Tuesday afternoon adopted Newland's resolutions providing for the annexation of Hawaii.

The debate, which continued without interruption since Saturday, June 11th, has been one of the most notable of this Congress, the proposed annexation being considered of great commercial and strategic importance by its advocates, and being looked upon by its opponents as involving a radical departure from the long established policy of the country, likely to be followed by the inauguration of a pronounced policy of colonization, the abandonment of the Monroe doctrine, and participation in international wrangles. More than half a hundred members participated in the debate.

From a party standpoint, the result was awaited with the keenest interest. The Republicans presented practically unanimous support to the resolutions, but three Republicans members voting in the opposition. In the Democratic ranks division upon the question was more marked, eighteen Democratic members voting for annexation. The vote supporting the resolution was made of 179 Democrats, 18 Democrats, 8 Populists and 4 Fusionists. The vote against annexation comprised 77 Democrats, 3 Republicans, 7 Populists and 4 Fusionists.

The resolution has gone to the Senate for action by that body.

## A Sharp Skirmish Near Guantano.

The marines landed by Admiral Sampson at the mouth of Guantano Bay have been having daily skirmishes with the Spaniards. The American forces are encamped on Crest Heights and have named their camp Fort McCalla.

Tuesday morning the marines, assisted by a band of Cubans, assumed the initiative and made an attack on the Spaniards, driving them back some three and a half or four miles. The fight was quite sharp. The losses were two Cubans killed and four wounded and two Americans wounded. Twenty-three Americans were overcome by the heat during the engagement. The Spanish lost nearly one hundred killed and wounded and eighteen prisoners. The Americans succeeded in cutting off the water supply of the Spaniards.

Seems as if consumption always picks the brightest and best. Fully one-sixth of all the deaths that occur in the world are caused by consumption. Many things were once considered impossible. It would be strange if medical science did not make some progress. The telegraph and telephone, the phonograph, the electric light—all were once impossible, and once it was impossible to cure consumption. That was before the time of Dr. Pierce's Golden Medical Discovery. Taken according to directions, this standard remedy will cure 98 per cent. of all cases of consumption. Consumption is caused and fostered by impurity in the blood. It is cured by purity and richness in the blood—surely, certainly cured by the "Medical Discovery." It builds up solid healthy flesh and vigorous strength.

### A Text Wrong But Apposite.

During the recent session in New Orleans of the General Assembly of the Southern Presbyterian Church one hot afternoon there had been several very irksome addresses and another was beginning when the stated clerk arose and read the following greetings from the Cumberland Presbyterian General Assembly: "Aacts xxii, 21." The speaker who was addressing the house paused until some one with a Bible could read the reference. Imagine his consternation when the passage was read as follows: "The priest Ananias commanded them that stood by him to smite him on the mouth." It is said that it took a large part of two days for the telegraph operator to correct his error and to report the reference in the telegram as it should have been. Acts xx, 32: "And now, brethren I command you to God, and to the word of His grace, which is able to build you up, and to give you an inheritance among all them which are sanctified."—Cumberland Presbyterian.

DYSPEPSIA is the name of undefined suffering. By taking Hood's Sarsaparilla the digestive organs are toned and dyspepsia is CURED.

### Sectional Bitterness Abated.

On the whole the President has been remarkably free from political bias in the selection of the most important army officers. However much the wisdom of his selections may be questioned, where individual fitness is concerned, it must be said that he has evinced admirable indifference to considerations of section and faction. In nothing has this been shown more strikingly than in the appointment of such men as Gen. Joe Wheeler and Flizburgh Lee to positions of highest command.

Beyond question this is good politics in a certain sense, for it is bound to win him the friendship of the Southern people and to abate the bitterness of his political enemies in this section.—Chattanooga News.

The Republican primary in the Louisville district resulted in a victory for Evans. Todd's friends are mad and held a separate convention, nominating the ex-Mayor. Todd was killed in his race for Mayor last fall, and while Evans got the nomination of the regularly constituted Republican convention the Todd faction will see to it that Mr. Evans does not get the full vote of the Fifth district next November.

The Court of Appeals reversed the case of the seven Councilmen of the city of Covington vs. Judge Tarvin. The court holds that the city is liable for the furniture put in the court room, but holds that Judge Tarvin acted improperly in imprisoning the Councilmen. Judge Hazelrig handed down a dissenting opinion, and in a masterly presentation of the law sustains Judge Tarvin.

### These Girls of Ours.

Here is the yell of the seniors of a Western female seminary: "Whang! Bang! Zip! Boom Yipe! Hurrah! Hi-Yi! Grea and White! Hallelaboo! Baloo! Balate! Lasee! Lasee! Ninety-eleven!" Well, may God help us all!—Atlanta Constitution.

## A NEGRO BRUTE

### Driven Into Glasgow Under the Lash.

Glagow, Ky., June 15.—Caleb Gaines, a negro boy, eighteen years old, was arrested and brought to town this morning on a charge of criminal assault upon the person of a little white girl only four years of age. Gaines came to this county from Hart county about two weeks ago and secured employment with Elijah Allen, a well-known farmer, living four miles from town. Late yesterday afternoon the negro called the little girl to come to the barn and she went. A few minutes later the father had occasion to go to the barn.

He would have killed the scoundrel at the time but for his wife, who is in delicate health, and begged him not to kill him. The negro made his escape and search was made for him all night by neighbors. Early this morning they caught him near Beaver Creek, not far from Mr. Allen's house. He was tied with a rope and driven afoot through the creek by men on horseback and on to Glasgow in a trot, his captors, headed by J. W. Read, lashing him with whips and switches the entire distance.

Their appearance on the public square, around which they drove him on their way to the county jail, the blood streaming from the negro's face and neck and the lashes applied vigorously, created a great sensation, and had there been more time for organization after the facts, became known he would doubtless have been mobbed right here upon the streets.

Later.—The negro was taken from the jail Wednesday night and hung to the limb of a tree in the Court House yard at Glasgow.

### Right in It.

That's where Dr. Caldwell's Syrup of Peppermint is. The greatest remedy for the stomach that was ever put together. Absolutely vegetable with the exception of the Peppermint. Have you indigestion or sick headache? Then use Syrup Peppermint. Spend 10¢ for a trial bottle and you will be convinced. Large sizes 50¢ and \$1. A true family remedy. At W. S. Lloyd's.

### Shooting the Rapids.

Capt. Ouellet and Batten, two of the oldest river pilots of the Dominion, have been engaged by the American Government to pilot two, and perhaps more, large boats from the great lakes to the Atlantic seaboard, shooting all the rapids of the St. Lawrence. The boats are over 200 feet in length and their size makes it impossible for them to be taken through the canals. They will be the first of this size of steamers to run all the rapids, the boats of the Richelieu and Ontario Navigation Company not exceeding 150 feet. Ouellet and Batten will receive \$1,500 each. It is thought that the steamers are to be used by the United States probably as colliers or transports.

E. C. Blanks, of Lewisville, Texas, writes that one box of DeWitt's Witch Hazel Salve was worth \$50.00 to him. It cured piles of ten years standing. He advises others to try it. It also cures eczema, skin diseases and obstinate sores.

### Tainted Money, He Calls It.

Atlanta, Ga., June 14.—The Rev. Dr. Lovejoy, one of the most prominent Methodists in the South, and Georgia's representative on the Book Committee of the Church, declared last night that the \$288,000 appropriated by Congress for his church should be returned as tainted money. Major Stahlman's fee of \$100,000 has already been paid, and it is beyond the reach of the committee, but the remaining \$188,000, Dr. Lovejoy thinks, should go back to the United States Treasury.

### Such is Fame.

The grave diggers who were employed to dig Mr. Gladstone's grave in Westminster Abbey came upon a leaden coffin of some unknown person. They also found remains of other persons, of whose burial there is no record. And at a greater depth skulls were found, which like the others, were only kept free from disappearance by the dryness of the soil.

Until one hundred copies of crayon portraits 16 by 20 inches, nicely framed, are sold, I will make them at \$2 each. Place your orders now.

## CANAN.

James Canan, aged 80 years, died at the home of his son William Canan, in Bath, country, on Wednesday of general debility. The funeral services were conducted by R. V. E. Healey on Thursday. The remains were taken to Washington, Mason country, for burial.

A bath with Cosmo Buttermilk Soap, exquisitely scented, is soothing and beneficial. Sold by Thos. Kenney, Druggist.

## Hoboes Arrested.

Chief of Police Chas. T. Wilson and force arrested ten hoboes on last Friday night on the charge of drunkenness. Two of them were captured within the city limits and the other eight were taken into custody out near the distillery. One of them tried to make his escape by flight, but a shot or so from the pistol of Deputy Sheriff Stockdale was sufficient to stop him. They were taken before Judges Turner and Hazelrigg on Saturday morning; eight were given \$5 and trimmings and two were turned loose, having dispossessed the charge against them.

You can make lower prices on four than any man in Mt. Sterling.

## A. BAUM &amp; SON.

According to a Spanish correspondent of the Courier-Journal at Havana, the German Vice Consul at Cienfuegos gave a banquet to the officers of the German cruiser Geier on the other day at which there was great cordiality between the Germans and Spaniards.

On the water in the moonlight. A young man to tell the story of his love and the young man of his choice to share his life can be very unhappy. There are common considerations outside of love that have a happiness. One of the most important is the good health of both parties. The young man who is the object of the young woman's affection commits a crime if he marries her. He commits her to the care of a mother who will bring her children to early death, or lives of sickness. The young man of course, is the Golden Medical Discovery of per cent. cases of consumption if taken in its earlier stages. It is the best treatment during the past thirty years. It is the blood-thinner, flesh-builder, nerve-tonic and heart-tonic.

The young woman who suffers from weakness and disease of the delicate and immature body, and the motherhood possible has no right to it. "For a young man's proposal until she is a woman, is a woman's proposal, a woman only way." Dr. Pierce's Favorite Prescription prepares a woman for wifehood and motherhood, and makes her strong and vigorous where a woman most needs strength, strength and vigor. Thousands of women have been saved.

"My daughter," writes Mrs. A. Thomas, of Little Rock, Ark., "had been under a doctor's care for a year. Dr. Pierce's Favorite Prescription, which cured me, also cured her."

#### MARRIAGES.

##### DAWSON-CONNOR.

Abby Dawson and Miss Carrie Connor, daughter of Wm. Connor, both of Bath county, were married in Lexington on Wednesday.

WILKERSON-BAKER.

T. J. Wilkerison, of this city, and Miss Gay M. Baker, of Lexington, will be married at the home of the bride's sister in Lexington at 10:30 o'clock this morning. Miss Baker formerly lived in Owingsville.

RIDDELL-SHELBY.

Hugh Riddell, of Irvine, and Miss Alice McDowell Shelby, of Lexington, will be married this afternoon at 5 o'clock at the bride's home, No. 70 Ashland avenue. The groom has frequently visited here. His brother Labo, of this city, will attend the wedding. We extend best wishes.

WALDEN-M'DOWELL.

George N. Walden, of Hamilton, Montana, and Miss Annie Vance McDowell, of Nashville, Tenn., were married on Thursday, June 16. The groom is the son of Rev. J. C. Walden, former pastor of the Christian church in this city; is an enterprising business man of high moral worth, and will succeed. We extend best wishes.

CHENAULT-LAUGHTH.

Mr. Anderson Chenault and Miss Josie Lauth were married in the parlor of the Catholic parsonage on Wednesday afternoon. The marriage was a very quiet affair, only the immediate relatives and a few of the intimate friends of the parties being present. Little Emile Lee Hibberd was the girl to the bride, and Dr. Howard VanAntwerp and Mr. Edward Mitchell served as ushers. Both Mr. Chenault and his wife are well and favorably known in this section, the groom being one of the wealthiest and most prominent farmers in the county, and the bride one of the most popular teachers in the city school.

## THE WONDERS

Of Science—Lung Troubles and Consumption Can be Cured.  
An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished New York chemist T. A. Stearns, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung and chest diseases, stubborn coughs, cerebral affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send three free bottles (all different) of his New Discoveries to any afflicted reader of the Mt. Sterling Advocate writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use. He considers it a simple profession... suffering humanity to donate a trial of his infallible cure.

Science daily develops new wonders, and the great chemist, patiently experimenting for years, has produced results so beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial, chest and lung troubles lead to consumption, which, uninterrupted mean speedy and certain death.

Simply write to T. A. Stearns, M. C. 98 Pine Street, New York, giving postoffice and express address, and the free medicine will be promptly sent. Subscribers should take instant advantage of this generous proposition.

Please tell the Doctor that you saw his offer in the ADVOCATE. 51-ff

## Giving to the Poor.

There is an old legend concerning these young women who disputed as to who had the most beautiful hands. One dipped her hands into the pure running "ream, another picked berries until her fingers were pink, a third gathered roses until her hands were made sweet by the fragrance. An aged woman, care-worn and decrepit, leaning upon her staff, came asking a gift, but all alike refused her. A fourth young woman, making no claims to beauty, ministered unto her needs. The aged woman then said: "It is not the hand that is dipped in the brook, nor the hand made red with berries, nor the hand gathered or perfumed with roses, that is the most beautiful, but the hand that giveth to the poor." As she thus spoke her mask fell off, her staff was cast aside, her wrinkles vanished, and she stood before them an angel of God.—Sunday Magazine.

## Earrings Again.

Would you believe it? To be in the mode each girl and each woman must from now on wear earrings. It is with no uncertain noise that fashion has issued this decree, and earrings, old or new—earrings from your grandmother's jewel casket, if you like, or earrings from the jeweler's—may be worn, provided only that some bit of gold or some gem glitters in your ear.

While display is never proper, and especially not in this case, the smart earring will be very large. It will be the hoop and chain, or the band of gold, or the "drop." A curious freak of fashion is that screw earrings will not be permissible. That is, the screw with its solitory jewel, frequently an exceedingly fine jewel, has not come into fashion with the other styles. The hook earring alone will rule.—New York Herald.

Win your battles against disease by acting promptly. One Minute Cough Cure produces immediate results. When taken early it prevents consumption and in later stages it furnishes prompt relief.

## The Ladrones.

Whether it is true or not that Capt. Glass of the Charleston, who is now on his way to reinforce Admiral Dewey, paused to take possession of the Ladrones, it can hardly be doubted that the American flag will wave over those islands.

Capt. Glass, who commanded the Texas at one time, is an energetic man, fully capable of bringing the Ladrones under our control. If he believes as thoroughly in the Texas as he used to believe in the Texas he might ask no help for such an achievement; but, as a fact, he has with him the troops on the transport Peking, and is understood that the only defense of the archipelago are a couple of small fort at Manila harbor on the island of Gujan. This last is one of the few inhabited islands in the group, and it contains San Ignacio de Agana, the only settlement worthy to be called a town. It seems to be a matter of doubt whether there is any Spanish vessel there, and it is certain that there is none that could cope at all with the Charleston.

We must have the Ladrones to add to our string of spoils from this war. Commercially they may not be very important and their loss in that respect might cause no chagrin to Spain.

But they lie on the route from Honolulu to Manila, and will form, accordingly, a convenient way station for us to turn our two main possessions in the Pacific. The group is notably mountainous, the northern islands, which are all uninhabited, being especially so. Separated by a broad channel are the five southern islands, Gujan, Agulian, Sopyan, Rota and Tinian, which contain perhaps eight thousand people, a good part of them colored from the Philippines, since the original inhabitants have died under the Spanish conquest.

Magellan's own term for the islands Isla de las Vistas Latinas, or Islands of the Lateen Sails, was prettier than Isla de los Ladrones, or Islands of the Thieves, which his crew preferred but the latter name has stuck, and has never been wholly displaced by later appellations, even by Mariana, in the official Spanish. This last is perhaps likely to be the one under which Uncle Sam will add them to his growing list.

It has been said that Capt. Glass's orders were to raise our flag over Gujan, and that this was the reason why he waited at Honolulu for the Peking to join him. There is no assertion, however, that he was to perform the same ceremony for the P-views, which lie southeast of Manila, and therefore a little out of his route. But that pleasure may be reserved for the Philadelphia or the Yorktown.—New York Sun.

## What Mexico Grows.

Potatoes are grown to the sum of \$1,000,000, but the Chili red pepper crop exceeds it three times.

Sugar is grown to the value of \$12,000,000, pulque \$2,000,000, cotton \$8,000,000 and nearly the same amount of coffee. Five million dollars is what the tobacco crop for last year yielded.

The wheat crop amounts in value to nearly \$30,000,000 a year; the rice crop is worth \$6,000,000; \$10,000,000 worth of beans are grown each year, for beans form a staple article of diet among the peasants.

Notwithstanding that Mexico is tropical corn is king there, as well as in our western States. The value of the Mexican corn crop for 1896 was over \$77,000,000. This is ten times the value of the coffee raised in that country.

The editor of the Evans City, Pa., Globe, writes: "One minute Cough Cure is rightly named. It cured my children after all other remedies failed." It cures coughs, colds and all other throat and lung troubles.

J. B. TIRTON.

## Cloth Made From Wood.

The making of wood into wood pulp and thence into paper set inventors to thinking, and a result is the discovery of the transformation of wood fibre into strong and handsome cloth, says the New York Mail and Express. The wood is boiled, crushed and the fibres separated in parallel lines, dried and spun, the same as cotton or wool. Oak, hickory and locust make a very handsome cloth, while bamboo produces one that is almost iron-like in its strength and of great elasticity. The cost of the new process is not large, but is still a little above that of converting cotton or linen into substantial tissues.

## FACTS AND OBSERVATIONS.

## A Three Days' Trip Around Judy and Sharpsburg.

## Crop Items and Black Diamond Railroad.

Trimble of the ADVOCATE spent Wednesday, Thursday and Friday, June 8 to 10 in the saddle in the interests of the paper. Of course he could not see everybody, so some must be left for next time. As people know, the weather was opposite, hot and he knew how to sympathize with the farmers busy with their crops, and is persuaded that their work is nearly as laborious as that of the editor, who, in addition to office work, goes from house to house canvassing for a paper, and collecting subscriptions, some of which have long since been due.

Every little has its hardships, in fact we are not to expect a very easy time.

There is a genuine pleasure in mingling with people, we study them and they study us. All are to learn to be considerately disposed. However great is the strain upon our patience when we come across a subject to whom indulgence has been granted for four to eight years, who absolutely refuses to pay a cent for his paper and then talks about "conscience"—we try to be gentle to wards all.

We drop in at all hours without special notices and are much pleased when our friends make "home-folks" of the Latin Sails, was prettier than Isla de los Ladrones, or Islands of the Thieves, which his crew preferred but the latter name has stuck, and has never been wholly displaced by later appellations, even by Mariana, in the official Spanish. This last is perhaps likely to be the one under which Uncle Sam will add them to his growing list.
